

Getting change right really matters

The pace of change within organisations is ever-increasing, driven by increased competition, technology shifts, and changes in government regulations.

The reality is that just deploying a new solution, strategy or process doesn't deliver sufficient benefits to businesses. Organisations must now focus on realising the benefits of change to ensure business outcomes are achieved. Full benefits are achieved through people adopting and utilising a new way of working.

Organisations that manage change well can realise the benefits of change and succeed. Organisations that do not manage change well become uncompetitive, unprofitable and inefficient.

How can Ralleo help?

Ralleo is a new way for your organisation to manage organisational change.

By combining digital tools with traditional change management techniques, it provides an intuitive interface that helps you efficiently and consistently plan and manage change across your organisation to better realise desired business outcomes.

- **Deliver better business outcomes**
- **Improve your organisational change management effectiveness**
- **Save time and money**

Managing change is easier with Ralleo

Executives can benefit from using Ralleo:

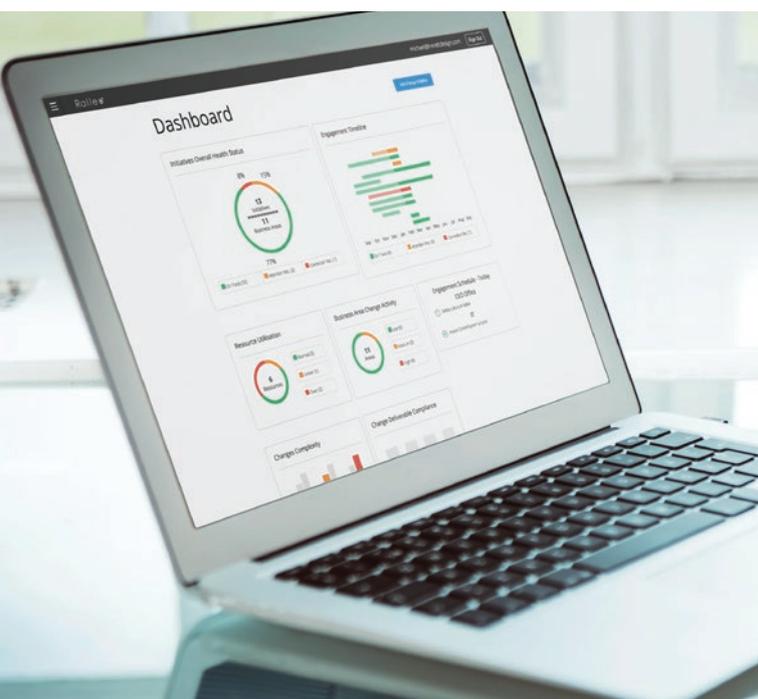

- Significantly increase the likelihood of your project's success.

- Provide a powerful data source for informed decision making.
- Advise which changes are on or off track using real-time health status.
- Enable you to see and understand the business impacts of change across your organisation.
- Transform the way your change team manages organisational change.
- Improve employee engagement by increasing the visibility of change and business impacts.
- Unleash the power of advanced business intelligence through Microsoft Power BI.

Change leaders can benefit from using Ralleo:

- Transform the way your team manages organisational change.
- Escape the frustration of archaic spreadsheets or post-it notes.
- Improve executive and stakeholder engagement and the visibility of your changes.
- Track your changes in real time, with ease.
- Readily understand the business impacts of your changes.
- Identify promptly which changes are on or off-track, with live health status.
- Unleash advanced business intelligence, by using Microsoft Power BI.
- Significantly increase the likelihood of change success.

IT Managers can benefit from using Ralleo:

- Deployed as software as a service (SaaS) for a fast deployment.
- Significantly increase the likelihood of project success.
- Keep up to date through real-time dashboard reporting.
- Readily understand the business impacts of changes.
- Drive a consistent approach to managing change across your organisation.
- Unleash advanced business intelligence, by using Microsoft Power BI.
- Benefit from a quick and effortless Ralleo implementation using the Ralleo Accelerator Program.
- Enjoy the security and reliability of Ralleo powered by Microsoft Azure.

Ralleo: Transforming organisational change management

Supports any change methodology

Ralleo supports all change management methodologies and can be customised to meet the needs of your organisation.

Improves business engagement

Ralleo allows you to view engagement activities making planning and communicating business engagements easier.

Improves the effectiveness of your change team

Ralleo allows your team to better plan and manage change.

Provides a single source of truth

Ralleo provides a single source of truth for all change management information.

Increases visibility and accessibility of change

Ralleo offers unlimited user licenses so stakeholders can monitor change with ease.

Improves resource utilisation

Ralleo helps you optimise the utilisation of your change resources, increase resource efficiency, and identify resource shortages to ensure successful project delivery.

Provides real-time metrics

Ralleo collates real-time metrics and change health statuses, so you can easily monitor changes and ensure they stay on track.

Offers customised watch lists

Ralleo focuses on your needs, supporting the customisation of your own watch list of the changes most important to you.

Simplifies integrations

Ralleo integrates with several solutions, including Microsoft SharePoint and Microsoft Power BI, so sharing information is easy.

Reports on business impacts

Ralleo gives you new insights into how change impacts particular business areas, so you can plan accordingly.

Drives a consistent approach

Ralleo drives a consistent approach to managing change in your organisation, building your organisation's change management capability.

Ensures data security and reliability

Ralleo is hosted on Microsoft Azure, the cloud for modern business, which ensures world-class data uptime and security.

"With Ralleo, we have increased our stakeholder engagement, executive engagement, and we deliver better project outcomes and ultimately a better return on investment"

Bodo Frost, Project Management Office Manager
Department of Commerce.

Government of Western Australia
Department of **Commerce**

How does Ralleo work?

Ralleo is a contemporary change management solution that ensures information and activities are shared consistently with the right people at the right time via an intuitive, easy-to-use solution.

It provides real-time insights into your portfolio of change initiatives or projects, as well as individual changes, allowing you to better plan and manage change, reduce risk, and realise more benefits across your organisation.

Ralleo is a secure, web-based application. An enterprise-grade software-as-a-service (SaaS) application, Ralleo is hosted on Microsoft Azure and can be accessed using any modern web browser.

Book your demonstration today

Ralleo is easy to use, there are no lock-in costs, and no hardware costs.
